Objective
Ensure that all heavy vehicle licence applicants are trained and assessed in accordance with requirements.

Purpose
All heavy vehicle licence holders must be able to demonstrate knowledge and the safe and effective operation of all vehicle controls and features that are used in operation of the vehicle.

Criteria 2 - Cabin Drill
Performance: Demonstrate all adjustments required to ensure safe, effective and comfortable operation of the vehicle. Locate, identify, and where appropriate describe the function of controls, gauges, and warning lights.

Conditions:
- Vehicle parked and secured
- Engine not running.

Test Criteria
- Seating Position
- Seatbelts
- Mirrors
- Cleanliness
- Controls.

No exemption from Criteria 1

All licence applicants completing HVCBA are required to complete Criteria 2 Cabin Drill. Assessors are reminded that correct assessment requires the applicant to locate, identify and where appropriate describe the function of controls, gauges, and warning lights.

Summary
Correct demonstration of cabin drill is critical to ensure safe operation of all vehicle controls.
